

Xelsar Private Limited

Xelsar Private Limited – Global-Standard Government (B2G) Education, AI & IT Services

CEO's Message:

As the **Founder & CEO of Xelsar Private Limited**, with over **9+ years of experience in the technology industry** and **16+ years of deep engagement in the education ecosystem**, I have closely witnessed how **policy, technology, and execution together shape a nation's future**.

At Xelsar, our vision goes far beyond education alone. We work at the intersection of **Education, Artificial Intelligence, Digital Governance, IT Systems, and Capacity Building**, with a clear purpose — to **enable Governments to deliver impact at scale**.

India today stands at a defining moment. National initiatives such as **NEP 2020/2022, Digital India, Skill India, Smart Cities, and AI-led governance reforms** demand not just technology vendors, but **long-term, accountable partners** who understand ground realities, policy intent, and global best practices. Xelsar positions itself as such a partner.

Through the **Ebazzar platform**, we execute Government programs with a strong focus on **transparency, scalability, security, and measurable outcomes**. Whether it is modernizing public education systems, integrating **AI and Robotics into learning**, building **citizen-centric digital platforms**, or strengthening institutional capacity through training, our commitment remains the same — **nation-building through technology-driven excellence**.

Our approach is rooted in **execution discipline, policy alignment, and future-readiness**. Every solution we design aims to strengthen India's global competitiveness, empower its institutions, and prepare its citizens for the opportunities of tomorrow.

We look forward to partnering with Governments and public institutions to collectively build a **digitally empowered, skilled, and globally respected India**.

— **Aishwarye Goutam**

Founder & CEO

Xelsar Private Limited

Corporate Overview:

We are a **government - focused Education, AI & Digital Transformation service provider**, delivering services **to Government bodies through the Xelsar Private Limited platform**.

Xelsar Private Limited acts as our **technology and service delivery framework**, through which **we plan, design, implement, and operate** large-scale Government (B2G) projects. All services are **provided by us**, with Xelsar Private Limited serving as the **execution, monitoring, and governance layer**.

Our service frameworks are aligned with **NEP 2020/2022, Digital India, DIKSHA, Skill India, Atal Tinkering Labs (ATL), Smart Cities Mission, and e-Governance standards**, enabling Governments to adopt **future-ready, compliant, and scalable solutions**.

Services:

1. Government Education Ecosystem & School Management System (SMS)

Xelsar Private Limited delivers a **Unified Government Education Platform** integrating **School Management System (SMS)**, **Academic Governance**, and **AI-driven insights**, designed for **district, state, and national-level deployments**.

Core Functional Modules:

- Centralized Student Admission, Enrollment & Academic Records
- Teacher, Staff & Institutional Management
- Attendance & Academic Compliance Monitoring
- Examination, Evaluation & Digital Result Systems
- Fee, Scholarship & Welfare Scheme Integration
- Academic Planning, Curriculum Mapping & Timetables
- Parent–Teacher–Student Digital Communication
- Multi-level Dashboards (School / Block / District / State)

AI-Driven Governance Capabilities:

- AI-based Learning Outcome Analytics
- Early Dropout & Risk Prediction Models
- Performance Benchmarking Across Regions
- Automated Compliance & Policy Reports
- Data-driven Decision Support for Education Departments

Deployment Platforms:

- Secure Web-based Government Admin Portals
- Android & iOS Mobile Applications

Impact for Government:

- Transparent & accountable education governance
- Evidence-based policy decisions
- Improved learning outcomes at scale

2. AI, Robotics & Future Skills (NEP 2022 Aligned)

Xelsar Private Limited supports Governments in implementing **NEP 2022 mandates** by integrating **Artificial Intelligence, Robotics, Coding, and Future Skills** into the education ecosystem.

Program Capabilities:

- AI & Computational Thinking Curriculum Support
- Robotics & Innovation Lab Enablement
- Coding, Automation & Emerging Technology Platforms
- AI-powered Adaptive Learning Systems

- Teacher Enablement & Capacity Building

Policy Alignment:

- NEP 2022 – Experiential & Skill-Based Learning
 - Atal Tinkering Labs (ATL)
 - Skill India & Future Workforce Initiatives
-

3. Government Web, Mobile Application & IT Services

Xelsar Private Limited provides **enterprise-grade IT services** for large-scale Government digital programs.

IT & Digital Services:

- National & State Government Portals
- Citizen Service & e-Governance Platforms
- Departmental Web Applications
- Mobile Apps for Public Service Delivery
- Cloud-Ready & Scalable Architectures
- API Integration with Government Systems
- Long-term Operations & Maintenance (O&M)

AI-Enabled Government IT:

- Citizen Support AI Chatbots
- Intelligent Workflow & Process Automation
- Data Analytics & Predictive Governance

Security & Compliance:

- Role-based Access & Audit Trails
 - Data Privacy & Secure Architecture
 - Scalability for State & National Rollouts
-

4. Government Learning Management System (LMS)

Xelsar Private Limited delivers a **Government-grade LMS** for **teacher training, officer capacity building, and national skill programs**.

LMS Applications:

- Teacher Professional Development (NEP Aligned)
- Government Employee Training
- Skill Development & Certification Programs
- Centralized Monitoring & Impact Assessment

Key Capabilities:

- Course Lifecycle Management

- Live & Recorded Learning
 - AI-based Progress & Outcome Analytics
 - Certification & Assessment Engines
-

5. Digital Outreach, Awareness & Citizen Engagement

Xelsar Private Limited assists Government bodies in **digital communication and public awareness initiatives**.

Services:

- Policy & Scheme Awareness Campaigns
 - Education Program Promotion
 - Digital Content & Creative Development
 - Public Engagement Analytics
 - Feedback & Grievance Integration
-

6. Training & Capacity Building (Government Programs)

Xelsar Private Limited executes **large-scale Government training programs** aligned with national missions.

Training Domains:

- Digital Literacy & ICT Enablement
- AI Awareness for Educators & Officials
- Teacher Training (NEP 2022 Framework)
- Entrepreneurship & Skill Development

Delivery Models:

Online | Offline | Hybrid | Workshops | Bootcamps

Why Governments Partner with Xelsar Private Limited (Ebazzar Platform)

- Policy-Aligned & Scheme-Ready Solutions
 - Proven Education + AI + IT Expertise
 - Scalable Architectures for National Impact
 - Transparent Reporting & Governance Dashboards
 - Long-term Support, Maintenance & Capacity Building
-

Vision:

To position **India as a global leader in Education, AI, and Digital Governance** by enabling Governments to build **intelligent, inclusive, and future-ready public education and service delivery ecosystems**.

We envision transforming India's education and governance landscape through **large-scale digital transformation, AI-driven decision-making, and next-generation skill development**, aligned with national priorities and global benchmarks.

Mission:

Our mission is to **partner with Governments at scale** and deliver **secure, compliant, and high-impact Education, AI, and IT solutions** that:

- Strengthen public education systems in line with **NEP 2020/2022**
- Integrate **AI, Robotics, and Future Skills** into mainstream learning
- Enable data-driven governance and transparent decision-making
- Support national initiatives such as **Digital India, Skill India, and Smart Cities**
- Build long-term institutional capacity through training and technology

We are committed to driving **nation-building through technology**, ensuring that every Government-led initiative we deliver contributes to **India's global competitiveness, workforce readiness, and digital leadership**.
