JSH Systems LLP is a DPIIT approved Startup registered in Rajasthan. We are also recognized by iStart Program, and are Q-Rated with Registration No. 5F7D556.

We are proficient in making AV Content, like training videos, explanatory videos, user manuals, academic courses, how-to videos, interviews, talk shows, and all kinds of video content, with text and voice-over in various Indic languages along with English.

We have in-house capabilities of video shooting, recording, editing, mixing, screen recordings and similar tasks. We have 360° solution for complete AV output, ready for release as streaming service online, or as a part of on demand access through an application.

We hereby propose to create videos for your E-Learning courses, which shall be in English or Hindi language. We can make these videos as completely animated, completely done by a smart Anchor / Presenter, or a mix of both – animations and presenter. We have qualified personnel to make the scripts, timelines, video and graphic boards, and animators, editors, presenters, technical experts, and script writers, who can create videos on various topics like Graphic & Web Designing, Web Development, Programming Languages like Python, C, R, Java, HTML, .NET etc., Technologies like AI-ML, Robotics, Edge Computing, Blockchain and so on. A detailed sample of the same can be provided when required.

We have a range of services to offer, which are priced very competitively. We would be obliged to offer a detailed proposal for any of your current or upcoming requirements. We request you to kindly allow us an opportunity to work with your esteemed Organization.

We shall be obliged.

Regards,
