

## **About the company**

Established in the year 2019 in Rajasthan, Eazup Technologies delivers a superior Tailor Made Solutions in robust assessment and evaluation platform. The Company emphasizes on building Hi tech evaluation structure to cater assessment solutions by blending artificial Intelligence in the process for authentic and foul free outcome of the evaluation conducted under a cost efficient fee structure.

Eazup Technologies endeavor to provide customized solution in the field of skill assessment, talent acquisition capacity analysis, educational test, recruitment process, and development of proctoring technologies, offline assessment with suitable infrastructure to invigilate the assessment.

We believe that Right to Education is Universal and all children should get equal opportunity to receive education. Looking at the need of the hour, information technology is dominating globally thus our education system is upgrading the teaching method and infrastructure to meet the need. For successful achievement of goals set to meet the need, we need an effective assessment or evaluation to give us the actual picture of whether our hard work is invested in correct direction, hence we came up with an effective artificial intelligence driven software for evaluation with cheap price structure for contributing in this same goal and provide equal scope to all the children in our country to self evaluate the progress.

## **Our Vision**

We are aspiring to become globally recognized integrated IT Solution Assessment company equipped with desirable tools, technologies, ideas to provide quality assessment service in real time by 2023. With our approach to cost efficient solutions service across all the corners of the country, we are aiming to develop effective infrastructural support to conquer the hindrances and barriers in assessment mechanism. We are providing customized assessment services so as to meet the core capabilities of student to actually get a report on their skills set, soft skills, latent abilities, creative thinking capacity. We believe that no two individuals are same thus their requirement and growth differs therefore through a constructive evaluation system the individual can identify the drawbacks, growth area, effort required. We also support "Ek Bharat Shreshtha

Bharat” vision and thus we also offer various language option as per the geographical region language for conducting assessment to ease the student with language issue.

## **Our Mission**

We strive to deliver an Artificial Intelligence driven platform to conduct all types of assessment as per the requirement. We endeavor to partner with Skill Training entities, cooperate house, educational institutes, human resource outsourcing, and talent acquisition houses. We are expanding in both digital and offline mode of assessment to provide avenues to our client in various types of assessment format with a thrifty structure of service charges in order to reach out to all sections and areas of the respective states to avail the experiences of our solutions to the grass root level. We aim to become one stop shop for all people irrespective of age, caste, class, religion etc.to cater to the assessment requirement effectively.
