Our Story

Our journey began in 2018, taking on projects as freelancers. With consistent effort and a growing network of satisfied clients, we steadily built a strong foundation. Guided by experienced mentors and fueled by perseverance through challenging times, we continued to evolve both creatively and professionally. In 2023, we took a significant step forward by officially launching Compitcom. Today, we channel our years of experience into delivering exceptional work across graphic design, 2D/3D design, video editing, web development, and digital marketing. Our story has shaped our values—and our commitment to quality drives everything we do.

Database

Firebase
Redis
PostgreSQL
MongoDB
MySQL
SQLite

CMS & E-Commerce

WordPress
WooCommerce
Shopify

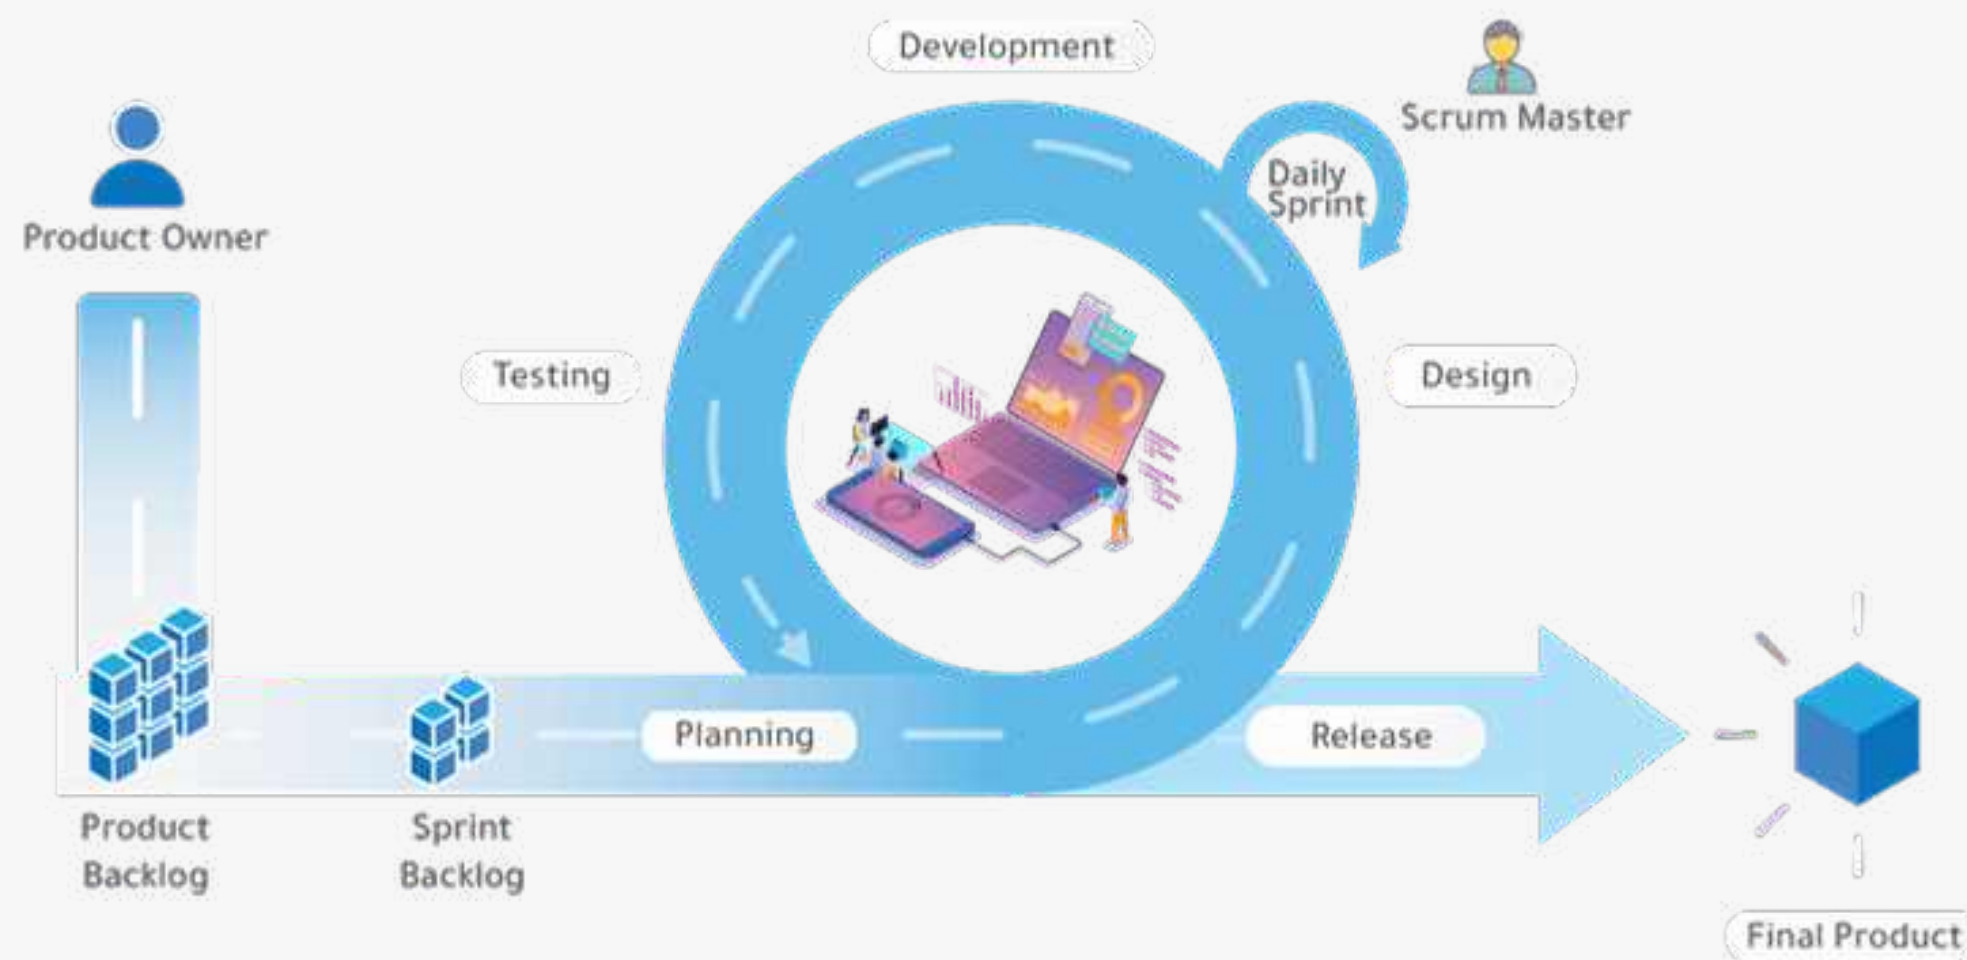

Graphic Design

Premier pro
Illustrator
Photoshop
After Effects
Figma
Canva

Development Approach

AGILE METHOD

Based on the client requirement & type of the project we prefer to go with the appropriate project execution methodologies & approach. It helps for development of high-quality IT products that meets or exceeds customer expectations, reaches completion within times & cost estimates.

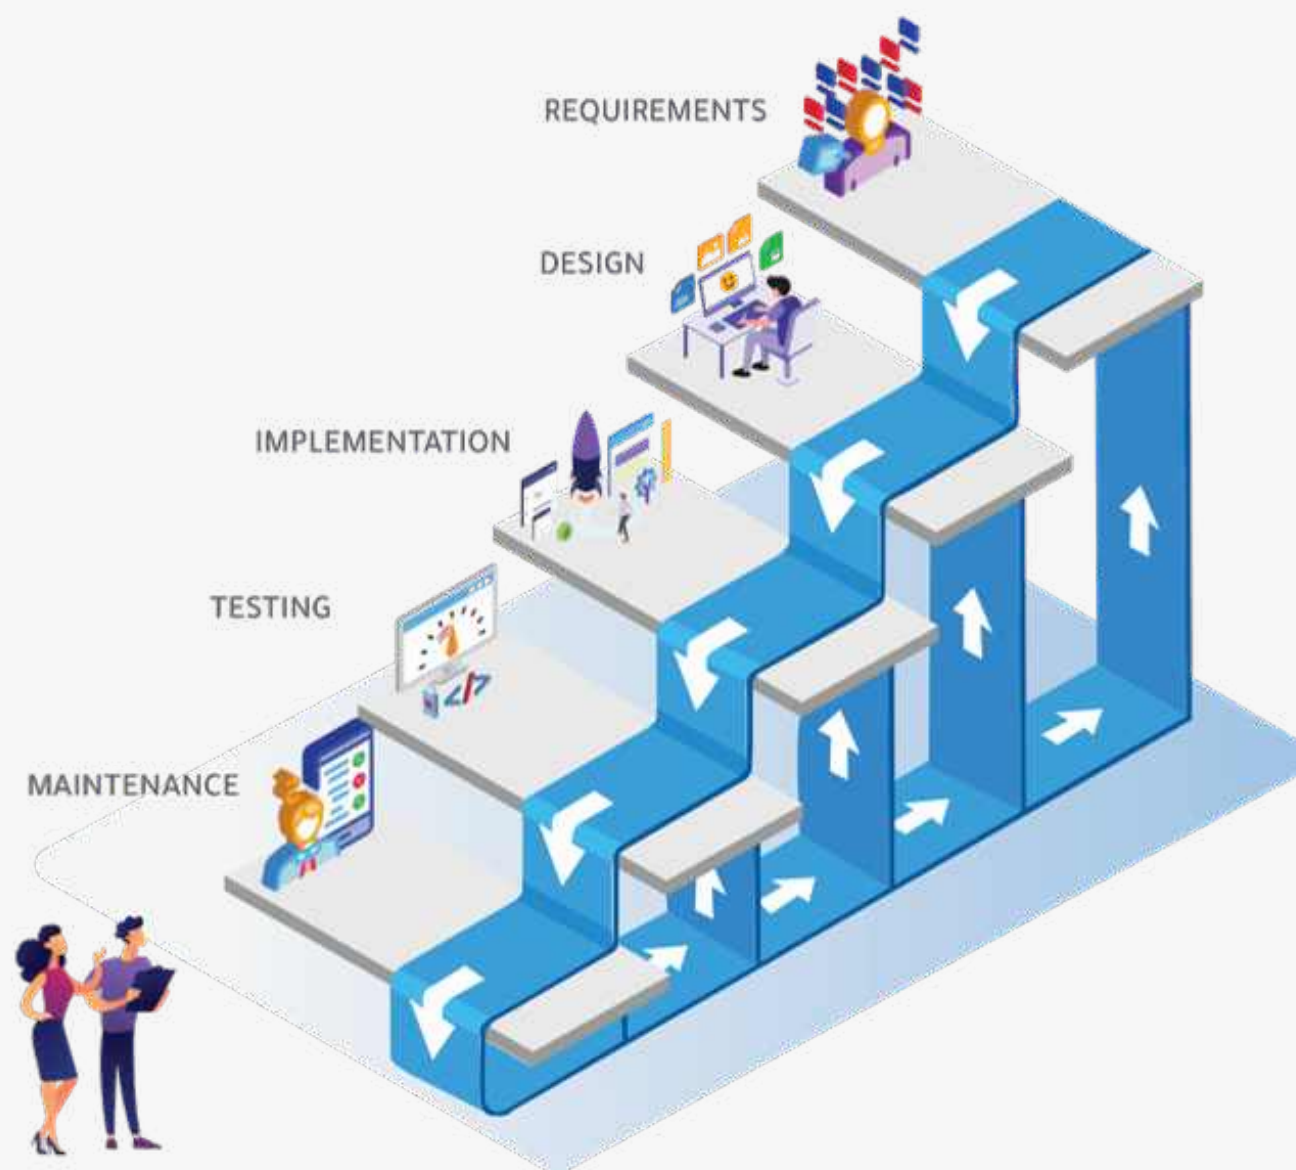

When to use :

- Few Initial Product & Regulatory Requirements
- Lenient Processes in Place
- High Product Owner
- Involvement Innovative product development from scratch
- Short, Flexible Timeline
- Budget with Wiggle Room

WATERFALL METHOD

The Waterfall methodology is the traditional and the most common methodology used for project management. It follows a sequential, linear process which is why it is often described as a “linear-sequential life cycle model”.

When to use :

- Many Initial Product Requirements & Strict Regulatory Requirements
- Strict Processes in Place
- Low Product Owner Involvement
- Enhancement to an Existing Product
- Fixed & Firm Timeline
- Fixed, Inflexible Budget
