Our first feature-length documentary, The Story of Plastic is a searing exposé revealing the ugly truth behind plastic pollution and the false solution of plastic recycling. Different from every other plastic documentary you've seen, The Story of Plastic presents a cohesive timeline of how we got to our current global plastic pollution crisis and how the oil and gas industry has successfully manipulated the narrative around it. From the extraction of fossil fuels and plastic disposal to the global resistance fighting back, The Story of Plastic is a life-changing, Emmy-winning film depicting one of the world's most pressing environmental issues.
