Mii Info Solutions

Abut Us

Mii Info Solutions is a start-up, started to strengthen the examination process by providing advance technology to examinations bodies. Mii Info Solutions is registered with Govt. of Rajasthan's iStart Program. We are a team of young professionals with expertise in the examination process and having a combined experience of more than 27 years. We have developed an AI-enabled mobile application for Registration and Verification process in examination to enable our clients to make their examination process impersonation-free while lowering their administrative risk and cost. We are also in process of developing many more such products to strengthen the process of examinations.

The services offered by Mii Info Solutions include Registration & Verification Management; Manpower Management; and pre and post-exam activities such as test centre management, verification results, Image scores etc. Mii Info Solutions also has acquired expertise in related services of examination such as online/offline test centre management. We can cater to a wide range of needs including Recruitment and Promotion Exams, Entrance and Certification Exams, Semester-end Exams, Aptitude Tests.

VeriFy

Product Brief

An AI-driven Face Recognition mobile application to counter impersonation complexity in the examination process by helping authorities to identify the right person at the right time to maintain the modesty of the examination process.

Android-based mobile application assisted by AI & ML and 'Face Recognition Technology'. With this application, entire Attendance, registration & verification formalities can be accomplished in split-second. It will not only aid dwindling the endeavours but will also help to rejuvenate the dignity and curriculum of the current process.

“Verify The Right Person at The Right Time & isolate impersonators from the exam process”

Problem Addressing

Currently in India, almost every exam is being attacked by fraudsters in many ways. Cases related to impersonation and dummy/proxy candidates are continuously rising in each and every exam in India. Every high-stake recruitment /entrance exam in India is in serious threat of lay hold by fraudsters. Even AADHAAR verification process has been by-passed by fraudsters with thumb cloning techniques. Using Proxy or Dummy candidate to qualify in the exam is becoming a trend among candidates. NTA, RRB, SSC, AIIMS and many other recruitment authorities across India has become a victim of impersonation. Due to such activities, many exams across the country got cancelled or re-conducted by the authorities.

WHY DOES IT MATTER

Generality is quite cognizant of the fact that fraudulence has got hold of the current Examination system. Despite the strict regimentation, fraudsters are being able to mutilate the current system. Many of the recruitment and entrance exams have been assaulted by "Dummy Candidates" and Aadhar verification process has also turned out to be 'A game of dolls'. This raises a tectonic threat to the authorities. But, this app is all set to ace it out, to alchemize the whole examination identification process by bestowing it a major blow. Via its exertion, the concept of proxy candidature can be nullified as it tenders inerrant identification and it looks forward to a steady posterity of this country.

Monitor each stage of the entire process for each candidate & get precise analytics and dynamic reports that are audit-ready.

***“Identify The Right Person at the beginning Stage only
and let the only Right person to enter into the Process”***

Problem Addressing

Currently in India, almost every exam is being attacked by fraudsters in many ways. Cases related to dummy/proxy candidates are continuously rising in each and every exam in India. Now a days, Involvement of dummy/proxy candidates starts from the application/registration stage only and current candidate application/registration system is not capable enough of identifying the right candidate and isolating the impersonators. Using Proxy or Dummy candidate to qualify in the exam is becoming a trend among candidates. NTA, RRB, SSC, AIIMS and many other recruitment authorities across India has become a victim of impersonation.

WHY DOES IT MATTER

Generality is quite cognizant of the fact that fraudulence has got hold of the current Examination system. Despite the strict regimentation, fraudsters are being able to mutilate the current system. Many of the recruitment and entrance exams have been assaulted by "Dummy Candidates" and it has identified that all such "Dummy Candidates" are entering in the process from application/registration stage only. This raises a tectonic threat to the authorities. But, **IDntiFy** is all set to ace it out, to tenacious the application process by bestowing it a major blow. Via its exertion, the concept of proxy candidature can be nullified as it tenders inerrant identification and it looks forward to a steady posterity of this country.
